PROFILE SUMMARY

Passionate and dedicated Fresher eager to kick-start a career in Developement Field. Seeking an entry-level position where I can utilize my skills in Html,Css,JavaScript, React JS,node JS,Sql and teamwork to contribute effectively to innovative projects while continuously learning and growing in a dynamic work environments.

KEY SKILLS

- HTML
- CSS
- JavaScript
- Bootstrap
- React Js
- node js
- SQL
- Git-Hub

ADDITIONAL SKILLS

- Java
- Jdbc
- Servlet
- Problem-solving

PROJECTS

Academic Project   **Mar-2021**
Soil Moisture Sensore Using Arduino
A soil moisture sensor project using Arduino involves using a sensor to measure the moisture content of soil and then using an Arduino microcontroller to process this data. The sensor typically produces an analog voltage signal that corresponds to the moisture level, and the Arduino can be used to convert this signal into a digital reading, display it on a screen, or trigger an action based on the moisture level.

React Project   **June-2024**
Library Management System
Developed a web-based library management system project using React .
Built reusable and modular components for efficient code management and scalability.
Implemented two separate login portals: Admin and User.

- Admin Login: Allowed administrators to add and delete books and users, managing the entire inventory and user base.
- User Login: Enabled users to browse books, view user lists, add books in cart, and manage their personal book collections.
- Successfully delivered a functional and user-friendly library management system that optimized book inventory management, improved user satisfaction, and reduced manual administrative tasks.

EDUCATION & CERTIFICATIONS

Bachelor of Science   **2018-2021**
Information Technology
The American College.

Full Stack Devolepment Course   **2024 jan-jul**
JSpiders

EXTRACURRICULAR ACTIVITIES

Html Introduction & Basic Certification
Simplileran.

One Day Workshop in Web Technologies
